29A Rolex Street, Saint Charbel Village I, Brgy. Tandang Sora, Quezon City

FULL-STACK WEB DEVELOPER

A Full-Stack Developer passionate about backend development and building real-world systems using the MERN stack. I bring hands-on technical experience from managing IT operations in a small business environment, along with strong problem solving and analytical skills developed through years of forex trading. I'm seeking junior roles where I can contribute to backend/API development, grow within a collaborative dev team, and help build scalable, meaningful software solutions.

KEY COMPETENCIES / SKILLS

JavaScript	PostgreSQL	Express	MaterialUI	FX Spot
TypeScript	React	TailwindCSS	Forex Trading	Risk Management
MongoDB	NodeJS	Bootstrap	MT4/MT5	

WORK EXPERIENCE

LOGOLIFE

March 2026

Software Engineer (March 2026)

Revived and maintained the company's end-to-end QA test using Playwright, improving test reliability and coverage across critical user flows. Identified and fixed feature-level bugs in the application, ensuring smoother user experience and system stability. Documented testing processes and maintained clear documentation for the E2E test suite to support team collaboration and future scalability.

DEMS FINANCIAL CONSULTANCY SERVICES

Nov 2019 - Feb 2026

Information Technology Operations Specialist (Jan 2024 - Feb 2026)

Handled end-to-end hardware and software troubleshooting, resolving system issues and ensuring daily operational continuity. Set up and maintained company equipment including computers, printers, routers, switches, and CCTV systems. Performed routine system updates, software installations, and remote support using tools such as TeamViewer. Drove on-site to support business operations and ensure stable IT infrastructure.

IT Support Technician (Jan 2022 - Dec 2023)

Provided independent day-to-day technical support for employees, handling hardware, software, and connectivity issues across the office. Installed and configured computers, printers, routers, and switches, performed system maintenance and updates, assisted with IP addressing and basic network configuration, and delivered on-site and remote support to ensure stable daily operations.

Junior IT Support Technician (Nov 2019 - Dec 2021)

Started as an entry-level IT support technician assisting with the setup, maintenance, and basic troubleshooting of office computers, printers, and peripherals. Provided hands-on support for common hardware and software issues, assisted with basic network setup, device configuration, and user support, and worked closely with senior staff to learn real-world IT operations in a small business environment.
